

Gear in motion

OR- 165 AUDIO DUFFLE BACKPACK

MODEL : OR-165

The Orca Audio Duffle Backpack was designed to carry audio operator gear for easy transportation. The bag can accommodate any of the Orca audio bags, together with Sound Zeppelin, Cables, Boom Pole, wireless systems and additional accessories. The bag comes with padded backpack straps that are stored inside a back pocket, 3 external giant pockets; one on each side and one at the top. Inside, a hook and loop system allows you to hold any Orca mixer bag mesh pockets for small accessories and rubber webbing enable you to secure accessories. The bag can also be used as a shoulder bag (shoulder strap sold separately).

Main features:

- Soft bag design for maximum storage capacity
- 3 giant external pockets (2 on the side, one at the top)
- Lightweight, flexible, foldable
- Weather/rain resistance
- Fold-and-stow padded backpack system
- Special boom pole pocket
